	Guideline value of the property (As per Index II)			26,41,000.00

Justification for price / rate

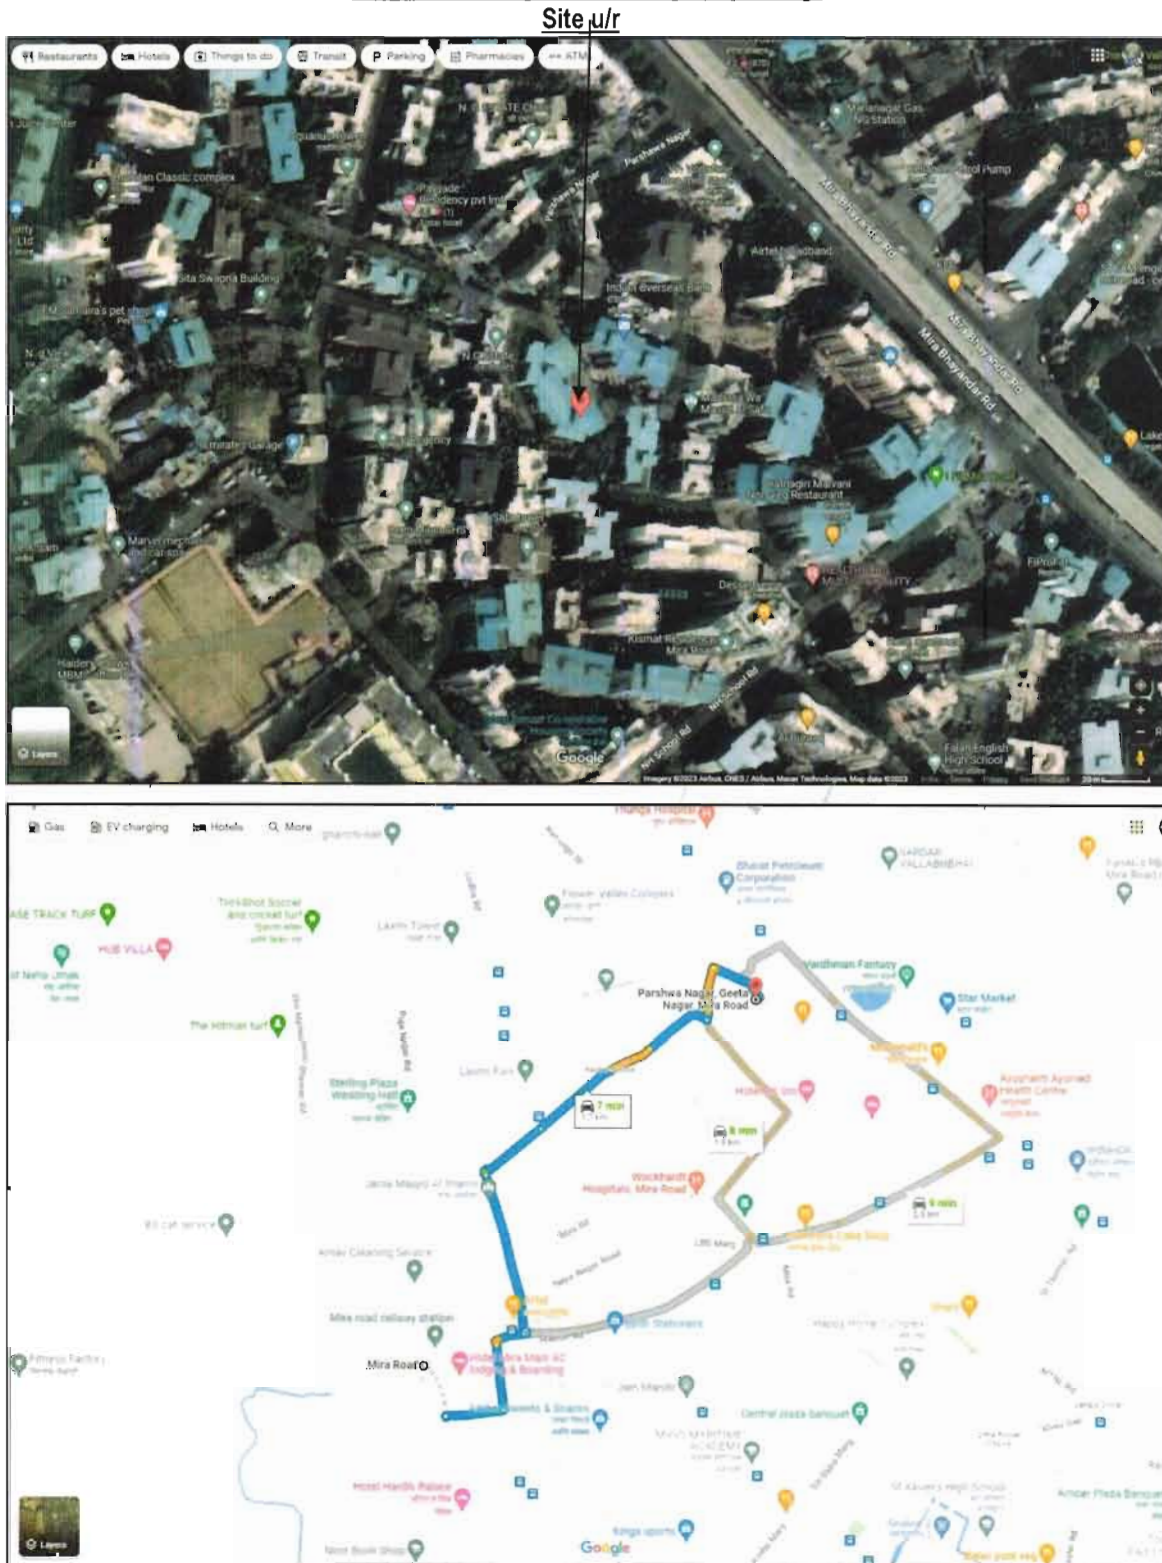

The Market Value of the property is based on facts of markets discovered by us during our enquiries, however the government rate value in this case is less than the market value arrived by us. We are of the opinion that the value arrive by us will prove to be correct if an Auction of the subject property is carried out. As far as Market Value in Index II is concerned, it is not possible to comment on same, may be government rates are fixed by sampling during same point of time in part and whereas, Market values change every month. In most of the cases the actual deal amount or Transaction value is not reflected in Index II because of various Market practices. As Valuer, we always try to give a value which is correct reflection of actual transaction value irrespective of any factors in market.

Method of Valuation / Approach

The sales comparison approach uses the market data of sale prices to estimate the value of a real estate property. Property valuation in this method is done by comparing a property to other similar properties that have been recently sold. Comparable properties, also known as comparables, or comps, must share certain features with the property in question. Some of these include physical features such as square footage, number of rooms, condition, and age of the building; however, the most important factor is no doubt the location of the property. Adjustments are usually needed to account for differences as no two properties are exactly the same. To make proper adjustments when comparing properties, real estate appraisers must know the differences between the comparable properties and how to value these differences. The sales comparison approach is commonly used for Residential Flat, where there are typically many comparables available to analyze. As the property is a residential flat, we have adopted Sale Comparison Approach Method for the purpose of valuation. The Price for similar type of property in the nearby vicinity is in the range of ₹ 11,000.00 to ₹ 13,000.00 per Sq. Ft. on Built Up Area. Considering the rate with attached report, current market conditions, demand and supply position, Flat size, location, upswing in real estate prices, sustained demand for Residential Flat, all round development of commercial and residential application in the locality etc. We estimate ₹ 11,450.00 per Sq. Ft. on Built Up Area (After Depreciation) for valuation.

Assumptions, Disclaimers, Limitations & Qualifications

Value Subject to Change

The subject appraisal exercise is based on prevailing market dynamics as on **13th March 2023** and does not take into account any unforeseeable developments which could impact the same in the future.

Our Investigations

We are not engaged to carry out all possible investigations in relation to the subject property. Where in our report we identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations where considered appropriate or where we recommend as necessary prior to reliance. Vastukala Consultants India Pvt. Ltd. (VCIPL) is not liable for any loss occasioned by a decision not to conduct further investigations

Assumptions

Assumptions are a necessary part of undertaking valuations. VCIPL adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculations or fall outside the scope of our expertise, or out instructions. The reliant party accepts that the valuation contains certain specific assumptions and acknowledge and accept the risk of that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation.

Information Supplied by Others

The appraisal is based on the information provided by the client. The same has been assumed to be correct and has been used for appraisal exercise. Where it is stated in the report that another party has supplied information to VCIPL, this information is believed to be reliable but VCIPL can accept no responsibility if this should prove not to be so.

Future Matters

To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to VCIPL at the date of this document. VCIPL does not warrant that such statements are accurate or correct.

Map and Plans

Any sketch, plan or map in this report is included to assist the reader while visualising the property and assume no responsibility in connection with such matters.

Site Details

Based on inputs received from Client and site visit conducted, we understand that the subject property is Residential Flat, admeasuring **Built Up Area in Sq. Ft. = 374.00** in the name **Mr. Rafiuddin Hasanraja Manihar**. Further, VCIPL has assumed that the subject property is free from any encroachment and is available as on the date of the appraisal.

Property Title

Based on our discussion with the Client, we understand that the subject property is owned by **Mr. Rafiuddin Hasanraja Manihar**. For the purpose of this appraisal exercise, we have assumed that the subject property has a clear title and is free from any encumbrances, disputes and claims. VCIPL has made no further enquiries with the relevant local authorities in this regard and does not certify the property as having a clear and marketable title. Further, no legal advice regarding the title and ownership of the subject property has been obtained for the purpose of this appraisal exercise. It has been assumed that the title deeds are clear and marketable.

Environmental Conditions

We have assumed that the subject property is not contaminated and is not adversely affected by any existing or proposed environmental law and any processes which are carried out on the property are regulated by environmental legislation and are properly licensed by the appropriate authorities.

Area

Based on the information provided by the Client, we understand that the Residential Flat, admeasuring **Built Up Area in Sq. Ft. = 374.00.**

Condition & Repair

In the absence of any information to the contrary, we have assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the property. The property is free from rat, infestation, structural or latent defect. No currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alteration or additions to the property and comments made in the property details do not purport to express an opinion about, or advise upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts

Valuation Methodology

For the purpose of this valuation exercise, the valuation methodology used is Direct Comparison Approach Method and proposed Current use / Existing use premise is considered for this assignment.

The Direct Comparison Approach involves a comparison of the property being valued to similar properties that have actually been sold in arms - length transactions or are offered for sale. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market and is particularly useful in estimating the value of the flat and properties that are typically traded on a unit basis.

In case of inadequate recent transaction activity in the subject micro-market, the appraiser would collate details of older transactions. Subsequently, the appraiser would analyse rental / capital value trends in the subject micro-market in order to calculate the percentage increase / decrease in values since the date of the identified transactions. This percentage would then be adopted to project the current value of the same.

Where reliance has been placed upon external sources of information in applying the valuation methodologies, unless otherwise specifically instructed by Client and/or stated in the valuation, VCIPL has not independently verified that information and VCIPL does not advise nor accept it as reliable. The person or entity to whom the report is addressed acknowledges and accepts the risk that if any of the unverified information in the valuation is incorrect, then this may have an effect on the valuation.

Not a Structural Survey

We state that this is a valuation report and not a structural survey
