17.	Whether occupied by the owner / tenant? If occupied by tenant since how long? Rent received per month.	:	Owner Occupied
II	CHARACTERSTICS OF THE SITE		
1.	Classification of locality	:	Located in Middle class locality
2.	Development of surrounding areas	:	Developed area
3.	Possibility of frequent flooding/ sub-merging	:	No
4.	Feasibility to the Civic amenities like School, Hospital, Bus Stop, Market etc.	:	All available near by
5.	Level of land with topographical conditions	:	Plain
6.	Shape of land	:	Rectangular
7.	Type of use to which it can be put	:	For Industrial purpose
8.	Any usage restriction	:	Industrial
9.	Is Land in town planning approved layout?	:	Layout Plan Not Provided
10.	Corner Land or intermittent Land?	:	Intermittent
11.	Road facilities	:	Yes
12.	Type of road available at present	:	B. T. Road
13.	Width of road – is it below 20 ft. or more than 20 ft.	:	Above 20 Ft
14.	Is it a Land – Locked land?	:	No
15.	Water potentiality	:	Municipal Water supply
16.	Underground sewerage system	:	Connected to Municipal sewer
17.	Is Power supply is available in the site	:	Yes
18.	Advantages of the site	:	Located in developed Industrial area
19.	Special remarks, if any like threat of acquisition of land for publics service purposes, road widening or applicability of CRZ provisions etc. (Distance from sea-cost / tidal level must be incorporated)	:	No
Part – A (Valuation of land)			
1	Size of Land	:	Land area – 4,925.00 Sq. M. (As per Transfer Letter and Approved Plan)
	North & South	:	-
	East & West	:	-
2	Total extent of the Land	:	Land area – 4,925.00 Sq. M. (As per Transfer Letter and Approved Plan)
3	Prevailing market rate (Along With details / reference of at least two latest deals / transactions with respect to adjacent properties in the areas)	:	₹ 20,000.00 to ₹ 23,000.00 per Sq. M. for land Last Two Transactions: Not Available Last two transaction are not available; we have made the online search but could not find out any ready reference for the surrounding locality. Value derived and adopted above is the outcome of local inquiry, searching on Internet, application of

		personal experience, keeping in mind, the area on which property is falling, its size, shape, surrounding development, nature of surrounding locality, nature of holding of plot, facilities available, civic amenities for communication, permissible and restriction in development, future potentiality etc. Details of online listings are attached with the report.
4	Guideline rate obtained from the Register's Office (an evidence thereof to be enclosed)	: ₹ 7,200.00 per Sq. M.
	Guideline Value of Land	: ₹ 3,54,60,000.00
5	Assessed / adopted rate of valuation	: ₹ 22,200.00 per Sq. M.
6	Estimated value of land	: ₹ 10,93,35,000.00
Part – B (Valuation of Building)		
1	Technical details of the building	:
	a) Type of Building (Industrial / Industrial / Industrial)	: Industrial
	b) Type of construction (Load bearing / RCC / Steel Framed)	: RCC / Steel Framed
	c) Year of construction	: 2009 to 2019 Base year of construction considered 2009.
	d) Number of floors and height of each floor including basement, if any	: Ground Floor + First Floor
	e) Plinth area floor-wise	: Built Up Area -3933.66 Sq. M. (Area As per BCC and Plan)
	f) Condition of the building	:
	i) Exterior – Excellent, Good, Normal, Poor	: Good
	ii) Interior – Excellent, Good, Normal, Poor	: Good
	g) Date of issue and validity of layout of approved map	: Copy of Approved Building Plan (Ground Floor Plan) Dated.29.10.2018 Digitally Singed by Mr.Uikey Dushant
	h) Approved map / plan issuing authority	: Balaji issued by Maharashtra Industrial Development Corporation (MIDC), Nashik.
	i) Whether genuineness or authenticity of approved map / plan is verified	: Copy of Approved Building Plan (First Floor Plan) Dated.29.10.2018 Digitally Singed by Mr.Uikey Dushant Balaji issued by Maharashtra Industrial Development Corporation (MIDC), Nashik. Copy of Approved Building Plan (Layout Plan) Dated.29.10.2018 Digitally Singed by Mr.Uikey Dushant Balaji issued by Maharashtra Industrial Development Corporation (MIDC), Nashik.
	j) Any other comments by our empanelled valuers on authentic of approved plan	: No

	Remark:		

The cost approach is a Real Property Valuation method which considers the value of a property as the cost of the land plus the replacement cost of the building (construction costs) minus the physical and functional depreciation.

The cost approach is a Real Property Valuation method which considers the value of a property as the cost of the land plus the replacement cost of the building (construction costs) minus the physical and functional depreciation.

This approach is most commonly used for real estate properties that are not easily sold like schools, hospitals, government buildings and above type of property. Land cost can be estimated using the Sales Comparison Approach by studying recent sales of land close to the subject property, and these sales should be comparable in size and location with subject property. There are different ways to estimate replacement costs, the most common being finding out the cost to build a square foot of comparable properties multiplied by the total square footage of the building. The cost approach is commonly used for Residential Bungalow, Residential Building and properties mentioned above. As the property is an industrial land and building thereof, we have adopted Cost approach / Land and Building Method for the purpose of valuation. The Price for similar type of property in the nearby vicinity is in the range of ₹ 20,000/- to ₹ 23,000/- per Sq. M. for land Considering the rate with attached report, current market conditions, demand and supply position, Land size, location, sustained demand for industrial Land, all round development of Industrial application in the locality etc.

We estimate ₹ 22,200/- per Sq. M. for Land with appropriate cost of construction for valuation.

The salability of the property is: Normal

Likely rental values in future in: N.A.

Any likely income it may generate: Nil

Assumptions, Disclaimers, Limitations & Qualifications

Value Subject to Change

The subject appraisal exercise is based on prevailing market dynamics as on **28th June 2023** and does not take into account any unforeseeable developments which could impact the same in the future.

Our Investigations

We are not engaged to carry out all possible investigations in relation to the subject property. Where in our report we identify certain limitations to our investigations, this is to enable the reliant party to instruct further investigations where considered appropriate or where we recommend as necessary prior to reliance. Vastukala Consultants India Pvt. Ltd. (VCIPL) is not liable for any loss occasioned by a decision not to conduct further investigations

Assumptions

Assumptions are a necessary part of undertaking valuations. VCIPL adopts assumptions for the purpose of providing valuation advise because some matters are not capable of accurate calculations or fall outside the scope of our expertise, or out instructions. The reliant party accepts that the valuation contains certain specific assumptions and acknowledge and accept the risk of that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation.

Information Supplied by Others

The appraisal is based on the information provided by the client. The same has been assumed to be correct and has been used for appraisal exercise. Where it is stated in the report that another party has supplied information to VCIPL, this information is believed to be reliable but VCIPL can accept no responsibility if this should prove not to be so.

Future Matters

To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to VCIPL at the date of this document. VCIPL does not warrant that such statements are accurate or correct.

Map and Plans

Any sketch, plan or map in this report is included to assist the reader while visualising the property and assume no responsibility in connection with such matters.

Site Details

Based on inputs received from Client's representative and site visit conducted, we understand that the subject property is contiguous and non-agricultural land parcel admeasuring **4,925.00 Sq. M. and structures thereof**. The property is owned by **M/s. Shivanand Industries** Further, VCIPL has assumed that the subject property is free from any encroachment and is available as on the date of the appraisal.

Property Title

Based on our discussion with the Client, we understand that the subject property is owned by **M/s. Shivanand Industries**. For the purpose of this appraisal exercise, we have assumed that the subject property has a clear title and is free from any encumbrances, disputes and claims. VCIPL has made no further enquiries with the relevant local authorities in this regard and does not certify the property as having a clear and marketable title. Further, no legal advice regarding the title and ownership of the subject property has been obtained for the purpose of this appraisal exercise. It has been assumed that the title deeds are clear and marketable.

Environmental Conditions

We have assumed that the subject property is not contaminated and is not adversely affected by any existing or proposed environmental law and any processes which are carried out on the property are regulated by environmental legislation and are properly licensed by the appropriate authorities.

Town Planning

The permissible land use, zoning, achievable FSI, area statement adopted for purpose of this valuation is based on the information provided by the Client's representative and the same has been adopted for this valuation purpose. VCIPL has assumed the same to be correct and permissible. VCIPL has not validated the same from any authority.

Area

Based on the information provided by the Client's representative, we understand that the subject property, contiguous and non-agricultural land parcel admeasuring **4,925.00 Sq. M. and structure thereof**.

Condition & Repair

In the absence of any information to the contrary, we have assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the property. The property is free from rat, infestation, structural or latent defect. No currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alteration or additions to the property and comments made in the property details do not purport to express an opinion about, or advise upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts

Valuation Methodology

For the purpose of this valuation exercise, the valuation methodology used is Direct Comparison Approach Method and proposed Highest and Best Use model is used for analysing development potential.

The Direct Comparison Approach involves a comparison of the property being valued to similar properties that have actually been sold in arms - length transactions or are offered for sale. This approach demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar

properties in an open and competitive market and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis.

In case of inadequate recent transaction activity in the subject micro-market, the appraiser would collate details of older transactions. Subsequently, the appraiser would analyse rental / capital value trends in the subject micro-market in order to calculate the percentage increase / decrease in values since the date of the identified transactions. This percentage would then be adopted to project the current value of the same.

Where reliance has been placed upon external sources of information in applying the valuation methodologies, unless otherwise specifically instructed by Client and/or stated in the valuation, VCIPL has not independently verified that information and VCIPL does not advise nor accept it as reliable. The person or entity to whom the report is addressed acknowledges and accepts the risk that if any of the unverified information in the valuation is incorrect, then this may have an effect on the valuation.

Not a Structural Survey

We state that this is a valuation report and not a structural survey

Other

All measurements, areas and ages quoted in our report are approximate

Legal

We have not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the subject property. VCIPL is not required to give testimony or to appear in court by reason of this appraisal report, with reference to the property in question, unless arrangement has been made thereof. Further, no legal advice on any aspects has been obtained for the purpose of this appraisal exercise

Property specific assumptions

Based on inputs received from the client and site visit conducted, we understand that the subject property is contiguous and non-agricultural land parcel admeasuring **4925.00 Sq. M. and structure thereof.**
