Valuation Report: SBI / RASMECCC Panvel / Darewar Tulana Pandurang & Others (11566/ 2308551) Page 17 of 27

Justification for price / rate

The Market Value of the property is based on facts of markets discovered by us during our enquiries, however the government rate value in this case is less than the market value arrived by us. We are of the opinion that the value arrive by us will prove to be correct if an Auction of the subject property is carried out. As far as Market Value in Property documents is concerned, it is not possible to comment on same, may be government rates are fixed by sampling during same point of time in part and whereas, Market values change every month.

In most of the cases the actual deal amount or Transaction value is not reflected in Property documents because of various Market practices. As Valuer, we always try to give a value which is correct reflection of actual transaction value irrespective of any factors in market.

ASSUMPTIONS, DISCLAIMERS, LIMITATIONS & QUALIFICATIONS

Value Subject to Change

Our Investigations

The subject appraisal exercise is based on prevailing market dynamics as on 8th October 2024 and does not take into account any unforeseeable developments which could impact the same in the future.

We are not engaged to carry out all possible investigations in relation to the subject property. Where in our report

we identify certain limitations to our investigations, this is to enable the reliant party to instruct further

investigations where considered appropriate or where we recommend as necessary prior to reliance. Vastukala

Consultants India Pvt. Ltd. (VCIPL) is not liable for any loss occasioned by a decision not to conduct further

investigations.

Assumptions

Assumptions are a necessary part of undertaking valuations. VCIPL adopts assumptions for the purpose of

providing valuation advise because some matters are not capable of accurate calculations or fall outside the

scope of our expertise, or out instructions. The reliant party accepts that the valuation contains certain specific

assumptions and acknowledge and accept the risk of that if any of the assumptions adopted in the valuation are

incorrect, then this may have an effect on the valuation.

Information Supplied by Others

The appraisal is based on the information provided by the client. The same has been assumed to be correct and

has been used for appraisal exercise. Where it is stated in the report that another party has supplied information

to VCIPL, this information is believed to be reliable but VCIPL can accept no responsibility if this should prove not

to be so.

Future Matters

To the extent that the valuation includes any statement as to a future matter, that statement is provided as an

estimate and/or opinion based on the information known to VCIPL at the date of this document. VCIPL does not

warrant that such statements are accurate or correct.

Map and Plans

Valuation Methodology

For the purpose of this valuation exercise, the valuation methodology used is Direct Comparison Approach

Method and proposed Current use / Exiting use model is used for analysing development potential.

properties that have actually been sold in arms - length transactions or are offered for sale. This approach

The Direct Comparison Approach involves a comparison of the property being valued to similar

demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar

properties in an open and competitive market and is particularly useful in estimating the value of the Office and

properties that are typically traded on a unit basis.

In case of inadequate recent transaction activity in the subject micro-market, the appraiser would collate details of older transactions. Subsequently, the appraiser would analyse rental / capital value trends in the

subject micro-market in order to calculate the percentage increase / decrease in values since the date of the

identified transactions. This percentage would then be adopted to project the current value of the same.

Where reliance has been placed upon external sources of information in applying the valuation

methodologies, unless otherwise specifically instructed by Client and/or stated in the valuation, VCIPL has not

independently verified that information and VCIPL does not advise nor accept it as reliable. The person or entity

to whom the report is addressed acknowledges and accepts the risk that if any of the unverified information in the

valuation is incorrect, then this may have an effect on the valuation.

Not a Structural Survey

We state that this is a valuation report and not a structural survey.

Other

All measurements, areas and ages quoted in our report are approximate.

Legal

We have not made any allowances with respect to any existing or proposed local legislation relating to taxation

on realization of the sale value of the subject property. VCIPL is not required to give testimony or to appear in

court by reason of this appraisal report, with reference to the property in question, unless arrangement has been

made thereof. Further, no legal advice on any aspects has been obtained for the purpose of this appraisal

exercise.

Property specific assumptions
