3.5) ABOUT THE PROJECT

M/s Krushna Cotex Private Limited (KCPL) was incorporated on 30th March 2007, as a private limited company with the objective of manufacturing of all kinds of Yarn. Textiles, readymade garments, furnishing fabrics etc. KCPL is currently engaged in manufacturing of Terry towels which are further sold in domestic as well as international markets. The company has proposed to setup a new unit for processing of fabric and manufacturing of made ups.

KCPL is part of Deesan Group of Companies. Deesan group was started by Mr. Amrish Rasiklal Patel in 1998 with an objective to develop Shirpur. The group is engaged into various activities such as manufacturing of textiles, Education, Agro Products, Textile Parks, and construction activities.

In the textile segment, the group is engaged in manufacturing of wide range of textile products such as Cotton yarn (grey/dyed), Knitted Fabric, Woven Fabric, Cotton Fabric, made ups, Terry Towels, Garments etc. Currently, the group has 1200 smaller width looms producing around 10 million meters per annum of shirting/dress material. 350 Wider width looms producing around 2.5 million meters per annum. Apart from this, the group also has 66 terry towel looms producing around 8400 metric tonne per annum. There are around 238 companies within the group.

/astukala Consultants (

Since 1989

KCPL is currently engaged in manufacturing of home textiles such as terry towel and has an installed capacity of 500 tonnes per month. The current product range of the company includes, wash towels, Hand towels, Bathmat and Bath Towels in various sizes. The promoters are now expanding its business activities further into home textiles in form of made ups unit.

The proposed manufacturing facility of KCPL has Fabric processing capacity of 60,000 metres fabric per day and made ups capacity of 5.000 sheeting sets per day. The company shall manufacture 5 types of made ups, namely. Twin, Full, Queen, King and Cal-King. All the types of bedding shall consist of Flat sheets, Fitted sheets and 2 Pillow Covers. However, the sizes of the made up shall defer based on the bedding type.

KCPL proposed expansion project comprises of the setting up a processing and made ups Unit with approx 60,000 meters/day fabric processing and 5 000 sets/day sheeting sets. Adequate storage and handling facilities are provided for the materials required for the production.

The fabric processed shall be partly captively consumed for manufacturing of made ups and the balance processed fabric shall be sold. The company is planning to Export the products manufactured in the new unit.

LOCATION:-

The project shall be located at Gat No 27, Village-Dahiwad, Taluka-Shipur, District-Dhule, Maharashtra, which is in an integrated textile park developed by M/s Deesan Infrastructure Private Limited (DIPL). DIPL has leased 1,18,350 sq. ft (i.e. 10999 Sq. M) of the said land to KCPL for 29 years.

LOCATION ADVANTAGES -

The integrated textile park developed by DIPL aims to provide favourable infrastructure for the textile manufacturers like water connection, power connection and other facilities catering to the textile industry required for uninterrupted operations. The raw material (cotton) is widely available in the region and is further supported by government programs. Since the region is a hub for textile industry, skilled labours are available in abundance. The region is well connected by transportation with all major cities in India. The land location is suitable for operating the proposed manufacturing facility and infrastructure like Roads, Power, Water. Transportation, etc together

/astukala Consultants (I

Longitude Latitude: 21°20'02.0"N 74°57'23.6"E

Note: The Blue line shows the route to site from nearest railway station (Nardana – 28.4 KM.) The technologies as proposed to be utilized by the company for the project are internationally well-established technologies for manufacturing of KCPL product. All the equipment shall be of high quality and based on latest technology.

The company would require 1,200 cubic meter of water per day which would be fulfilled from the existing Textile Park.

The project is expected to start commercial operations in April 2024. As per TEV Report Building required for the proposed project is developed on DIPL on land admeasuring 118350 sq. ft (i.e. 10999 Sq. M) of the said land is leased to KCPL by DIPL for 29 years. As per revised Plan provided by the Company, the Built-up area for Building is as under:-

The promoters plan to subscribe to two government subsidies as follows

Power Subsidy

As per the New Textile Policy, Maharashtra government will provide the power subsidy benefit to Textile sector A subsidy of Rs 2 per unit will be given to textile sector unit to avail power subsidy benefits After getting this document verified from the power sector department, the subsidy benefit will be reflected in the power bill and will be availed by the manufacturer on a monthly basis.

Capital Subsidy

The Amended Technology Upgradation Fund Scheme (has been notified by the Ministry of Textiles. In order to promote ease of doing business in the country and achieve the vision of generating employment and promoting exports through "Make in India" with "Zero effect and Zero defect" in manufacturing, it has been decided that the government would provide credit linked capital Investment Subsidy (under Amended Technology Upgradation Fund Scheme (ATUFS).

Vastukala Consultants (I

Since 1989

The Scheme would facilitate augmenting of investment, productivity, quality, employment, exports along with import substitution in the textile industry It will also indirectly promote investment in textile machinery (having benchmark technology) manufacturing.

Technology Upgradation means induction of new machinery by an entity engaged in the textile industry with state of art technology as specified annually by the Technical Advisory cum Monitoring Committee (Technology lower than the specified one will not be treated as Technology Upgradation. Capital Investment Subsidy (means the subsidy at prescribed rate on credit linked Capital Investment to an entity engaged in textile sector on technology upgradation which will be determined on the basic cost' of the specified machinery after its installation and commissioning. 'Basic cost' means cost of machinery excluding taxes, duties and any other charges

To avail this Capital Subsidy benefit, the company will have to file the application thru online portal to DIC department. Government will release the funds as per there schedule to the respective loan account of the Company. This capital subsidy funds will be adjusted against the loan taken by the company.

Total estimated project cost is Rs. 191.71 Crores as indicated in table provided below for ready reference.

3.11) PRE-OPERATIVE EXPENDITURE: -

Preoperative expenditure for the proposed project estimated by the company is Rs. 3.23 Croes and the break-up of the same is as under: -

S. No.	Description	Amount Rs. Lakh	
1	Legal Charges	8.33	
2	Company Formation Expenses	5.00	
3	Establishment and Project Man. Expenses.	8.33	
4	Rent, Rate and Taxes	5.00	
5	Communication Cost	3.33	
6	Travelling Expenses	16.67

10	Training & Start up Expenses (Trial Runs)	20.00	
11	Engineering / Consultants Fees.	16.86	
	Total	322.86	

3.12) CONTINGENCY: -

The cost estimate is based on the budgetary quotations for most of the capital Equipments and no major change in the cost is expected. Considering these factors, provision for contingency has been estimated at @5% of Project Cost of Building, Cost of Plant & Machinery, Other Fixed Assets and Preliminary/ Pre-Operative Expenses (i.e., Rs. 3.00 Crores+ Rs. 130.38 Crores + Rs. 19.35 Crores + 3.23 Crores = Rs. 155.96 Crores). Therefore, the estimated cost for contingency is Rs. 7.80 Crores.

3.13) SOFT COST: -

The Soft Cost consist of Interest During Construction (IDC) and Promotors contribution. The Breakup for the same is as under: -
