a)	Methodology of valuation – Procedures adopted for arriving at the valuation. Composite Method is adopted
b)	Prevailing Market Rate/Price trend of the Property in the locality/city from property search sites viz magickbricks.com, 99acres.com, makaan.com etc. if available	Rs. 25,000.00 to Rs. 30,000.00 per Sqm. as prevailing Flat rate. Considering the rate with attached report, current market conditions, demand and supply position, Commercial Building size, Terrace area, location, upswing in real estate prices, sustained demand for commercial building, all round development of commercial and residential application in the locality etc. Therefore, we estimate composite  Land+Building) rate at Rs. 25000.00 per Sqm. for 100%  Complete work. Whereas @ 70% work is completed. Hence Rs. 17,500.00 Per Sqm. rate is proposed.
c)	Guideline Rate obtained from the Stamp Duty Ready Reckoner	Rs 24,800.00 per Sqm. (Composite rate).

- e) In case of variation of 20% or more in the valuation proposed by the valuer and the Guideline value provided in the State Govt. notification or Income Tax Gazette justification on variation has to be given.
  - Subject property under valuation is Flat No. G-02, Ground Floor, "Dashmesh Apartment, M. H. No.1-6-242,3-6-238,3-6-238 & 3-6-267, C.T.S. No. 2264, 2266, & 2267, Gurudwara Gate No. 4, Badpura, Nanded, Tg. & Dist. Nanded.
  - All Civic amenities are available nearby.
  - To obtain the Sales Instances in the vicinity, we visited the Joint Sub Registrar Office, Nanded.
  - The Ready Reckoner rate i.e. Guide Line rate for Residential Flatted Rate property in zone 1.33 is Rs. 24,800.00 per Sqm.
  - The above Guide line Rate is for entire block of zone 1.33.
  - Guideline Rates are basically generated for stamp duty purpose, at the time of purchase of the property, which are fixed for year to year for particular survey Nos., Gut Nos., CTS Nos., etc.
  - There is market trend to register the document as per the Guideline rates and not as per the market rate just to save the Stamp duty.
  - Market Rates are not fixed. Market rates depend mainly on demand and supply.
     Market rates may increase or decrease as per surrounding devolvement, approach road, location, availability of amenities & services, demand and supply in surrounding areas etc.
  - The Market value obtained in this report is defined as follows:
  - Market value is the estimated amount for which an asset should exchange on the date of valuation between a willing seller in an Arm's length wherein the parties had each acted knowledgeably and without compulsion. { as defined by the international valuation committee, London}.
    Thus the characteristics of the Market Value are:
    - It is free will sale.
    - b. It is an estimated amount and not a predetermined or an actual sale price.
    - c. It depends on purpose of valuation.
    - d. It is time-specific as on the given date.
    - e. Buyers and sellers are actuated by business principles. They are unrelated & are acting independently
    - Assets would be exposed to the market in the most appropriate manor to effect its disposal at the best price.

- As per the Supreme Court the Guideline rate is for stamp duty collection and not the Fair Market Value
- In case of Jawaji Nagnathan vs. REV. DIV. Officer (1994) SCC 4 Page 595 SC the Court held, "It is therefore, clear that the Basic Valuation Register prepared and maintained for the purpose of collecting stamp duty has no statutory base or force. It cannot form a foundation to determine the market value mentioned there under in instrument brought for registration. Evidence of bonafide sales between willing prudent vendor and prudent vendee of the land acquired or situated near about that land possessing same or similar advantageous features would furnish basis to determine market value."
- Social Forces, Economic forces, Government / Legal and Physical / Environmental factors influences the value of Real Estate.
- This property is situated in the developing area of Badpura, Nanded.
- There is no scarcity of land in the vicinity.
- The cost of construction is arrived by considering the type of construction and grade, constructions specification, and Age of Building.
- The Cost Approach and Market Approach Method is adopted to arrive the Fair Market Value.
- After giving due consideration for various factors influencing the value of the property with respect to Physical, Legal, Social and Economical aspects, Location, Development in the vicinity, Road frontage, the rate of Rs. 34,000.00 Per Sqm. Residential Flatted Rate is considered Fair and Reasonable and hence adopted to arrive the Fair Market value of the Flat
