The cost approach is a Real Property Valuation method which considers the value of a property as the cost of the land plus the replacement cost of the building (construction costs) minus the physical and functional depreciation.

Since 1989

Page 8 of 22

This approach is most commonly used for real estate properties that are not easily sold like schools, hospitals, and government buildings.

Land cost can be estimated using the Sales Comparison Approach by studying recent sales of land close to the subject property, and these sales should be comparable in size and location with subject property.

There are different ways to estimate replacement costs, the most common being finding out the cost to build a square foot of comparable properties multiplied by the total square footage of the building. The cost approach is commonly used for Residential House, Industrial Building and properties mentioned above.

As the property is a Open Plot thereof, we have adopted Market Approach Method for the purpose of valuation. The Price for similar type of property in the nearby vicinity is in the range of Rs. 9,000.00 to Rs. 11,000.00 per Sqm. for land Considering the rate with attached report, current market conditions, demand and supply position, Land size, location, upswing in real estate prices, sustained demand for Residential House / Pldt, all round development of commercial and residential application in the locality etc. We estimate Rs. 10,000.00 per Sq. M. for Land with appropriate cost of construction for valuation.

The salability of the property is: Normal

Rental Income: Nil

DEFINITION OF VALUE FOR THIS SPECIFIC PURPOSE

This exercise is to assess Fair Market Value of the property under reference as on 04th December 2024. The term Fair Market Value is defined as

"The most probable price, as of a specified date, in cash, terms equivalent to cash, or in other precisely revealed terms for which the specified property rights would sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently knowledgeably and for selfinterest assuming that neither is under undue duress".

Fundamental assumptions and conditions presumed in this definition are:

- 1. Buyer and seller are motivated by self-interest.
- 2. Buyer and seller are well informed and are acting prudently.
- 3. The property is exposed for a reasonable time on the open market.
- 4. Payment is made in cash or equivalent or in specified financing terms.

UNDER LYING ASSUMPTIONS

- 1. We assume no responsibility for matters of legal nature affecting the property appraised or the title thereto, nor do we render our opinion as to the title, which is assumed to be good and marketable.
- The property is valued as though under responsible ownership. 2.
- It is assumed that the property is free of liens and encumbrances. 3.
- It is assumed that there are no hidden or unapparent conditions of the subsoil or structure that would 4. render it more or less valuable. No responsibility is assumed for such conditions or for engineering that might be required to discover such factors.

DECLARATION OF PROFESIONAL FEES CHARGED

We hereby declare, that our professional fees are not contingent upon the valuation findings, However, if the statute AND/OR clients demands that, the fees should be charged on the percentage of assessed value then, with the full knowledge of the AND/OR end user, it is being charged accordingly.

VALUATION OF THE PROPERTY PREMISES

Considering various parameters recorded, existing economic scenario, and the information that is available with reference to the development of neighborhood and method selected for valuation, we are of the opinion that, the property premises can be assessed and Fair Market Value for this particular purpose at Rs. 10,80,000.00 (Rupees Ten Lakh Eighty Thousand Only).
