5.	Brief description of the property:	
	<p><u>About the company</u></p> <p>VinFast Auto India Private Limited is a 2.8 Years old company, incorporated on 26 Apr 2022. It is classified as Private Unlisted Indian Non-Government Company. It's Parent company VinFast Auto Ltd. is a Vietnamese multinational automotive company founded by Vingroup, one of the largest private conglomerates in Vietnam that was founded by Pham Nhat Vuong. Established in 2017 in Haiphong, it is the first Vietnamese car brand to expand into global markets as well as the first to expand into producing electric vehicles (EV) such as electric cars and electric scooters.</p> <p>VinFast, Vietnam's leading electric vehicle manufacturer, officially broke ground on its first integrated electric vehicle (EV) manufacturing facility in the state of Tamil Nadu, India. This landmark project, creating employment opportunities for approximately 3,500 local residents, affirms VinFast's commitment to global green transportation. The groundbreaking ceremony was graced by Thiru M. K. Stalin, Honorable Chief Minister of Tamil Nadu; Thiru Dr. T. R. B. Rajaa, Honorable Minister for Industries, Government of Tamil Nadu; Thiru V. Arun Roy IAS, Industries Secretary, Member of Parliament – Thoothukudi constituency; Ministers of state, MLAs (Members of Legislative Assembly of Tamil Nadu), senior representatives from the State government and the VinFast India leadership team.</p>  <p>The image shows a group of officials seated on a stage during a groundbreaking ceremony. The backdrop features logos for VinFast, the Government of Tamil Nadu, and Guidance Tamil Nadu. The text on the backdrop reads: 'GROUND BREAKING CEREMONY VINFAST INDIA MANUFACTURING PLANT' and 'PRESIDED BY THIRU. M.K. STALIN HONORABLE CHIEF MINISTER OF TAMIL NADU'. Several individuals are seated in ornate chairs, some are clapping, and one man in a white shirt is shaking hands with a man in a dark suit.</p> <p>Spanning 400 acres within the State Industries Promotion Corporation of Tamil Nadu (SIPCOT) industrial estate, the electric vehicle facility boasts a total initial investment of \$500 million over 5 years, with a projected capacity of 150,000 vehicles annually. This will create jobs for 3,000 to 3,500 local residents. While strengthening partnerships</p>	

with world-leading suppliers, VinFast also plans to promote localization, contributing positively to local economic growth.

Mr. Pham Sanh Chau, CEO of VinFast India, commented on this historic milestone, stating: "VinFast's groundbreaking ceremony for its plant in Thoothukudi, Tamil Nadu, is a significant stride towards sustainable and green mobility in India. By establishing an integrated electric vehicle facility, the company's commitment to job creation, green transportation, and strategic partnerships solidifies VinFast's position as a major player in the electric vehicle industry. This milestone strengthens the bonds between the robust economies of Vietnam and India, and underscores VinFast's dedication to a zero-emission transportation future, setting the stage for economic growth, innovation, and environmental sustainability in the region."

Honourable Minister Dr. T. R. B. Rajaa added, "VinFast's entry into India reaffirms Tamil Nadu's progressive industrial policies and its role as a global automotive innovation and manufacturing hub. Tamil Nadu will match VinFast's ambitious growth plans in the country and is committed to making zero-emission mobility widely accessible. We believe the project will substantially contribute to the local economic advancement, job creation, and technical skill development of the people of Tamil Nadu."

India represents a key market in VinFast's global expansion plan, capitalizing on the potential presented by this rapidly growing market. The project not only affirms VinFast's global reach but also joins the existing manufacturing complex in Vietnam and future plants in the U.S. and Indonesia, solidifying VinFast's global manufacturing ecosystem.

In addition to the manufacturing facilities, VinFast plans to establish a nationwide dealership network to build a strong brand presence and swiftly connect with customers across the country. VinFast is committed to providing the Indian market with premium quality products, competitive pricing, and outstanding after-sales services to make electric mobility widely accessible and strengthen the comprehensive strategic partnership between Vietnam and India.

5. JUSTIFICATION FOR PRICE / RATE

The Market Value of the property is based on facts of markets discovered by us during our enquiries, however the government rate value in this case is more than the market value arrived by us. We are of the opinion that the value arrive by us will prove to be correct if an Auction of the subject property is carried out as the land is a huge land. As per Market practice, Property having low area are sold at higher rate compare to property having large area. As far as Market Value is concerned, it is not possible to comment on same, may be government rates are fixed by sampling during same point of time in part and whereas, Market values change every month.

As Valuer, we always try to give a value which is correct reflection of actual transaction value irrespective of any factors in market.

6. APPROACH ADOPTED FOR VALUATION: SALES COMPARISON APPROACH

- The sales comparison approach uses the market data of sale prices to estimate the value of a real estate property. Property valuation in this method is done by comparing a property to other similar properties that have been recently sold. Comparable properties, also known as comparable, or comps, must share certain features with the property in question. The most important factor is no doubt the location of the property.
- Adjustments are usually needed to account for differences as no two properties are exactly the same. To make proper adjustments when comparing properties, real estate appraisers must know the differences between the comparable properties and how to value these differences.
- Land cost can be estimated using the Sales Comparison Approach by studying recent sales of land close to the subject property, and these sales should be comparable in size and location with subject property. As the property is Industrial land, we have adopted Sales Comparison Approach Method for the purpose of valuation. The Price for similar type of property in the nearby vicinity is in the range of ₹ 8,00,000/- to ₹ 10,00,000/- per Acre for land Considering the rate with attached report, current market conditions, demand and supply position, Land size, location, sustained demand for such Plot, all round development of industrial application in the locality etc. We estimate ₹ 9,40,000/- per Acre for Land for valuation.

Impending threat of acquisition by government for road widening / public service purposes, sub merging & applicability of CRZ provisions (Distance from sea-cost / tidal level must be incorporated) and their effect on	There is no threat of acquisition by Government. CRZ Provisions not applicable.

No currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alteration or additions to the property and comments made in the property details do not purport to express an opinion about, or advise upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts

Valuation Methodology

For the purpose of this valuation exercise, the valuation methodology used is Proposed development potential Method and proposed Highest and Best Use model is used for analysing development potential.

In this method we have analysed the development potential of land in terms of FSI Applicable, TDR, Fungible FSI and other development control regulations are taken into consideration. Accordingly we have calculated development potential as a commercial cum residential project development. As the subject location is very premium for Industrial project, we have considered the same for evaluation process. We have considered prevailing market rates for industrial properties for calculation of sale price.

In case of inadequate recent transaction activity in the subject micro-market, the appraiser would collate details of older transactions. Subsequently, the appraiser would analyse rental / capital value trends in the subject micro-market in order to calculate the percentage increase / decrease in values since the date of the identified transactions. This percentage would then be adopted to project the current value of the same.

Where reliance has been placed upon external sources of information in applying the valuation methodologies, unless otherwise specifically instructed by Client and/or stated in the valuation, VCIPL has not independently verified that information and VCIPL does not advise nor accept it as reliable. The person or entity to whom the report is addressed acknowledges and accepts the risk that if any of the unverified information in the valuation is incorrect, then this may have an effect on the valuation.

Not a Structural Survey

We state that this is a valuation report and not a structural survey

DEFINITION OF VALUE FOR THIS SPECIFIC PURPOSE

This exercise is to assess **Fair Market Value** of the property under reference as on **25th December 2024**.

The term **Fair Market Value** is defined as

“The most probable price, as of a specified date, in cash, terms equivalent to cash, or in other precisely revealed terms for which the specified property rights would sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently knowledgeably and for self-interest assuming that neither is under undue duress”.

Fundamental assumptions and conditions presumed in this definition are:

1. Buyer and seller are motivated by self-interest.
2. Buyer and seller are well informed and are acting prudently.
3. The property is exposed for a reasonable time on the open market.
4. Payment is made in cash or equivalent or in specified financing terms.

DECLARATION OF PROFESSIONAL FEES CHARGED

We hereby declare that, our professional fees are not contingent upon the valuation findings. However, if the statute AND/OR clients demands that, the fees should be charged on the percentage of assessed value then, with the full knowledge of the AND/OR end user, it is being charged accordingly.

VALUATION OF THE PROPERTY PREMISES

Considering various parameters recorded, existing economic scenario, and the information that is available with reference to the development of neighborhood and method selected for valuation, we are of the opinion that, the property premises can be assessed and valued for this particular purpose at
