**Details of Valuation:**

Sr. No.	Description	Qty.	Rate per unit (₹)	Estimated Value (₹)
1	Present value of the Residential Flat	433.00 Sq. Ft.	10,000.00	<b>43,30,000.00</b>

The sales comparison approach uses the market data of sale prices to estimate the value of a real estate property. Property valuation in this method is done by comparing a property to other similar properties that have been recently sold. Comparable properties, also known as comparables, or comps, must share certain features with the property in question. Some of these include physical features such as square footage, number of rooms, condition, and age of the building; however, the most important factor is no doubt the location of the property. Adjustments are usually needed to account for differences as no two properties are exactly the same. To make proper adjustments when comparing properties, real estate appraisers must know the differences between the comparable properties and how to value these differences. The sales comparison approach is commonly used for Residential flat, where there are typically many comparables available to analyze. As the property is a Residential flat, we have adopted Sale Comparison Approach Method for the purpose of valuation. The Price for similar type of property in the nearby vicinity is in the range of i.e., ₹ 9,000/- to ₹ 12,000/- per Sq. Ft. on Carpet Area & ₹ 8,000/- to ₹ 11,000/- per Sq. Ft. on Built Up Area. Considering the rate with attached report, current market conditions, demand and supply position, Residential flat size, location, upswing in real estate prices, sustained demand for Residential flat, all-round development of residential and commercial application in the locality etc. We estimate ₹ 10,000.00 per Sq. Ft. on Carpet Area for valuation.

As a result of my appraisal and analysis, it is my considered opinion that the value of the above property in the prevailing condition with aforesaid specifications is ₹ 43,30,000.00 (Rupees Forty Three Lakh Thirty Thousand Only). The Realizable Value of the above property is ₹ 38,97,000.00 (Rupees Thirty Eight Lakh Ninety Seven Thousand Only). The Distress Value is ₹ 34,64,000.00 (Rupees Thirty Four Lakh Sixty Four Thousand Only). As per Site Inspection, 45% Construction Work is Completed.

## **Justification for price /rate**

The Market Value of the property is based on facts of markets discovered by us during our enquiries, however the government rate value in this case is less than the market value arrived by us. We are of the opinion that the value arrive by us will prove to be correct if an Auction of the subject property is carried out. As far as Market Value in Index II is concerned, it is not possible to comment on same, may be government rates are fixed by sampling during same point of time in part and whereas, Market values change every month.

In most of the cases the actual deal amount or Transaction value is not reflected in Index II because of various Market practices. As Valuer, we always try to give a value which is correct reflection of actual transaction value irrespective of any factors in market.
